

Fabrício Guidine | Quality Assurance Engineer

+5532988812008 fabricioguidine@gmail.com Brazil, SP in/fabricioguidine /fabricioguidine

PROFESSIONAL EXPERIENCE

- Equifax** Jun 2025 – Present
Sr. QA Engineer Barueri, SP · Hybrid
 - Led AI-powered QA initiatives using LLMs to automate test generation, streamline workflows, and reduce effort
 - Contributed to SDLC stages under Scrum, supporting sprint planning, backlog, and QA across global teams
 - Developed Python scripts to validate data pipelines and database snapshots powering credit score models
 - Tested and validated the migration of 15+ scoring routines from legacy AS/400 systems to GCP, leveraging Apache Airflow 3, REST APIs, and YAML-based configurations to achieve system interoperability
 - Applied mirror testing with BigQuery and Apache Spark across NPE, UAT, and production envs to ensure data parity between legacy and modernized pipelines and supported the automation validation for its execution
 - Built Python-based LLM integrations that transformed automation outputs into Zephyr reports, ensuring real-time test coverage traceability and reporting accuracy according to BRD to ensure test completeness
- PagBank** Aug 2020 – Feb 2025
Intern to Sr QA Analyst São Paulo, SP · Remote
 - Responsible for the management of DoR/DoD in QA rituals such as Regression, Integration and System testing
 - Scaled to the company a Bash Script for generation of Dummy Data with parameters for complex test scenarios
 - Wrote Mockoon mocks to test APIs and validate it through Android/iOS applications pre release builds
 - Manage TestNG repo with REST Assured for RESTful (Selenium/Cucumber) and GraphQL for SOAP (TS/Jest)
 - Reviewed PR's and were able to deploy the code from the development to homologation and production envs
 - Did performance tests using JMeter and scaled it to k6 to achieve Load, Stress and Soak coverage
 - Updated the Cypress repo for insurance sales management website and migrated to the same Playwright approach
 - Delivered automated core flows UI/UX validation for mobile OS's with Appium engine running RobotFramework
 - Intercepted HTTP/S requests and modified responses to reproduce error scenarios on a recurring basis
 - Created Postman collections for the API endpoints suite and implemented in Newman's via terminal
- FADEPE** Oct 2018 – Oct 2019
Junior Systems Analyst Juiz de Fora, MG · On Site
 - Responsible for technical support in resolving issues, answering questions, and configuring the systems
 - Management on Jira for creating and tracking bugs, validating fixes, and creating updated documentation

EDUCATION

- Federal University of Juiz de Fora** Jun 2020 – Dec 2025
BSc in Information Systems Juiz de Fora, MG

PROJECTS

- Undergraduate Research – Mobile App to Support Alcohol and Tobacco Users** Jun 2020 – Jun 2021
Volunteer Developer – Formal Methods, Chatbots, Quality Assurance Juiz de Fora, MG
- Scholarship Project – Migration of UFJF's Institutional Websites** Oct 2020 – Mar 2021
Organizational Knowledge Management – Accessibility, Usability, WordPress Juiz de Fora, MG

TECHNICAL SKILLS

Methodologies: Manual, Automated, API, UI/UX, Web, Mobile, Integration, Regression, Shift-left, Test Design, Root Cause Analysis, Debugging, Exploratory, Contract, Acceptance testing
Frameworks: Cucumber, Appium, JUnit, TestNG, Playwright, Cypress, Selenium, Cucumber, Jest
Libraries: Selenium, REST Assured, pytest, requests, HTTPretty, behave, Faker, Mockoon, Capybara, Puppeteer
LLMs: GPT (3.5/4o mini/5), Claude (Sonnet/Opus), Gemini (DeepMind 1.5 Pro/Flash), LLaMA 3 (3B/7B)
Tools: JMeter, Postman/Newman, CharlesProxy, k6, New Relic, Swagger, SonarQube, Kafka, n8n
Dev Ops: Jenkins, Docker, Kubernetes, AWS, GitHub, GitLab, GitHub Actions, Azure DevOps, GCP
Envs: Unix-like, Windows, BrowserStack, Xcode, Android Studio, IntelliJ/PyCharm, VS/Visual Studio Code
Languages: Python, Java/Kotlin, Bash, Gherkin, JavaScript/TypeScript, SQL, Rust
Test Management: Jira/Confluence, Xray, Zephyr, Trello, TestRail, TestLink, Mantis

CERTIFICATIONS AND COURSES

- CTFL – ISTQB Certified Tester Foundation Level** Dec 2022
- CPRE-FL – ISTQB Certified Professional in Requirements Engineering – Foundation Level** Mar 2024
- Masters Courses – PGCC UFJF Soft. Eng. & Special Topics in Soft. Eng. and DBs** Dec 2024
